
PART 2: CERTIFICATE OF CONSENT – UNITI-BIG

Herewith I agree to participate in the study “**UNITI (UNification of treatments and Interventions for Tinnitus Patients) – BIG online study**” at the Clinic and Polyclinic for Psychiatry and Psychotherapy of the University of Regensburg (Bezirksklinikum).

In doing so, I will receive 12 weeks of tinnitus treatment consisting of acoustic therapy and structured counseling via the UNITI app and complete the diary integrated in the app on a daily basis. I agree to complete several tinnitus and health-related questionnaires prior to treatment.

I confirm that I have read and understood the Patient Information Sheet on the conduct of the UNITI BIG online study. I had enough time to make a decision and had the opportunity to ask additional questions via mail about participating in the study.

I understand that my participation is voluntary and free of charge, and that I can withdraw my consent at any time without giving any reason, without this having any effect on my future care.

I confirm that I am able and willing to fully complete my participation in this study.

I give permission for my anonymised data to be used for research purposes.

I understand that neither I nor my public or private insurance company will incur any costs from the treatment, procedures and tests of the study.

I agree that my study data may be used and shared by the study team/principal investigator (PI) and other researchers for additional research in an anonymous form.

I have decided to participate in this study.
